Associated Press leased-wire Service.

INDIANAPOLIS, Aug. 20,—Henry Donul, a young farmer of Adams county, was driving along the road in his buggy near Decatur last night, when he met a young woman with a baby in her arms.

She asked to ride; he got out and held the baby while she jumped into the buggy. As soon as she was seated she took the reins, hit the horse with the whip, and dashed away. Donul was too dazed to comprehend the situation, but when he did he found that the girl had his rig end he had the baby. She was going at a two-minute gait when he last saw her. The woman abandoned the rig some miles away and has disappeared, while the child has been turned over to the county authorities.

Republicans Claim That Tariff Legislation is Closed - President Cleveland's Health is Improved-The House

WASHINGTON, Aug. 20 .- For fifteen or twenty minutes today the business of the Arms being sent in search of a quorum. The Senate was eighteen short of a voting quorum, only twenty-five having voted on non-political motion, thus showing that Congress is slowly disintegrating. four supplemental tariff bills were all reported from the Finance Committee and

sent to the calendar. Several bills were passed, among them the bill for the speedy prosecution of the claim of the United States against the

At 1:40 p.m. the Senate adjourned until Wednesday, after an executive session lasting twenty minutes.

The Republicans say there will be no more business of importance transacted at this session, except, perhaps, the passage of the bill correcting the alcohol schedule Today Senator Lindsay was ready to make a speech defending the action of the Senate Finance Committee and the Democratic Senators who supported them. It is also understood Senator Allison was also ready to make a speech of some length on the present status of tariff legislation. It is possible that both of these speeches will possible that both of these speeches will be made by the courtesy of the Senate, al-though the Republicans said that no

speeches would be made.

Some of the Democrats assert that if any attempt is made to prevent the speeches on the Democratic side, a quorum will be recalled under duress by the Ser-geant-at-arms. On the Republican side it is claimed the tariff debate as well as

the tariff legislation is at a close.

A FAULTY BILL. NEW YORK, Aug. 20.—The Evening Post says that more errors in the new tariff bill, as passed, are being discovered. As the story runs, Senator Blackburn became very much incensed at Senator White's election to fill the vacancy on the Finance Committee, and his unexpected assault on the bills putting sugar, coal, iron ore and barbed wire on the free list.

"At the close of Senator Hill's speech Serator Blackburn, who had been sitting two or three desks away, glaring at the New York Senator in the intensity of his indignation, stood up, and, shaking his hand at Senator Hill, characterized him and his conduct as distinctly unparliamentary. Senator Hill replied with some cutting sarcasm. The dislogue could not be heard beyond the floor of the Senate, but as repeated afterward, the language of Senator Blackburn was peculiarly personal and calculated to offend. The statement in part says that the total appropriations for the fiscal year, ending June 30, 1895, just made by the Fifty-third Congress, amounts to \$490,-668,869. They include the permanent annual appropriations, as well as those for the postal service. It includes all appropriations. The total amount appropriated for the last fiscal year, ending June 30, 1894, made by the second session of the Fifty-second Congress, was \$519,504,354.

During the last session of the last Congress there was appropriated for pensions, including a deficiency of \$14,149,724, the total of \$180,631,074.85. At this session there is appropriated for pensions \$151,581,507, or \$29,099,504 less, which reduction in pensions exceeds the whole apparent net reduction in appropriations by this sessions.

By Telegraph to The Times.

SAN FRANCISCO, Aug. 20. — (Special Dispatch.) The seething mob of patriots that surged through the lobbles of the Baldwin and Palace hotels in June has been duplicated during the last three days, and tonight the cauldron of politics of the unterrified is at the boiling point. The rotunda of the Baldwin is the rallying point for the cohorts who have come from Siskiyou and from San Diego, as well as the scope of country that lies between. Mixed and intermingled with the hayseeders from the cow counties are the low-browed banjo-eyed kinds and blinker-Murphys from the tarflat of the metropolis, and, taken as a whole, it is not too much

norning brought the tail-end of the dele-

morping brought the tail-end of the delegation to the convention, and J. Marion Brooks of the ecturie stepped off the ferry-boat at the foot of the thoroughfare that leads to the Grand Hutel, with gore in his optic because of a publication in this morning's Examiner which represented him as being aiready on the ground and agying unkindly things about Statesman McCafrirey of the Second Ward. Col. Brooks threatened to do up a few Hars and horse-thieves when he got here and, as it is now past midnight, the job has in all probability been attended to.

The particular fight in the Los Angeles delegation is on Congressman Messmore, ensitable of Santia Ana, who is being put forward as the caididate of the R.R., apparently because the R.R. men in the delegation, of whom there are several, are for him. His friends claim he has eighteen votes in Los Angeles, but figure they ever so industriously they don't seem to be able to muster force enough to beat George Patton. However, the fight is hot and the situation is tightened up like a fiddleshring. A Patton man sent me up a note tonight saying; "Col. Mazuma has arrived." It this is not merely a scare Messmare may yet who, but I am inclined to believe ithat the San Gebriel gentleman has a climb on the nomination. But we shall see.

Tonight it looks as if Del Vaile would

believe shat the San Gabriel gentleman has a cimch on the nomination. But we shall see.

Tonight it looks as if Del Vasle would be elected chairman without opposition. Confusion reigns as to the nomination for Governor. Right at this moment everything points to a victory for Jim Budd, the buckbard statesman of San Joaquin. The delegation from his county are classing everything on both sides of the street and a mile and a half out in the country; but there is tremendous sentiment in favor of Billy Foote, who, however, declines to get into the arena because of his loyalty to Budd. Barney Murphy of Santa Clara is playing fast and loose. One influte he is in it, and then he isn't. He probably ton't Maguire, Ostrum and the rest of them are out of the running, and if some-body doesn't get up a whoop on Wednesday and carry the convention off its feet, Budd will fikely get there.

Late this afternoon there was considerable talk about putting up the ticket of 1892. Pond and Del Valle, but Mr. Pond is quite as much of an ice wugon as he was four years ago, and it would be necessary to build a fire under him to make him run. Del Valle is a possibility for Lieutenant-Governor in any event. Ex-Mayor Workman met me on Market street today, and stated that, under no considraction, would he run. The tidal wave for Monday that

Governor in any event. Ex-Mayor Workman met me on Market street today, and stated that, under no considraction, would he run. The tidal wave for Monday that threatened to drive people to the hills of Montana has not yet even sprinkled yet.

The San Francisco delegation in this convention is apparently a headless corpse. It is wildly at sea, and the guiding hand of the "blind boss" is sadly missed. Max Popper is promiscuous about in the giddy throng, a manager without a troupe of performing tigers, or even lambs.

The South has few candidates. Martin Marsh has been "mentioned" for Secretary of State, but it will doubtless be let go at that. Nickel has a good show for the Board of Equalisation, but has an active opponent in Hutchins of Fresno. Jackson Temple is undoubtedly safe for a long-term judgship nomination, but any speculation about the other judges would be wild guesses. In fact, that would be the general character of any slate sent you tonight.

The convention assembles at 10 o'clock

wild guesses. In fact, that would be the general character of any slate sent you tonight.

The convention assembles at 10 c'clock in the Baldwin Theater. Much kicking has been heard because there are fewer seats on the first floor of the theater than there are delegates, and a second kick has been registered because there is a company playing at this house, and there can be no night sessions. However, as Manager Bouvier has had the carpet canvased over and considerable expense gone into, it is not believed that a change will be made to a bigger house.

Industrious buttonholing of high-browed warhorses of the party of sugar scandals, on my part has not resulted in any finding many of them who feel confidence in the election of the ticket, no matter who is nomirated. The whole proceeding has a perfunctory air about it, and there is a graveyard odor also about it that is most unpleasant. There are prospects of a fight over the indorsement of Cleveland's administration, Many of the most level-headed men of the party say such indorsement will cost them the State sure. A prospective resolution against the A.P.A. is talked of, but even the party which is generally pretty sure to do the thing that the other fellows want them to do will hardly fall into that trap.

In twenty-four hours from now I should be able to send you something more specific than the rattle-brained guesses ploked up in desultory talks with men in the halls and on the staircases of a hotel.

Candidates Galore With an Indeterminate Strength as Yet.

Associated Press Leased-wire Service.

SAN FRANCISCO, Aug. 20.—The Chronicle says: "Delegates to the Democratic
State Convention began to arrive in large

icle says: "Delegates to the Democratic State Convention began to arrive in large numbers yesterday. The whole of the Los Angeles delegation is now here, and, in their midst, the handsome and popular ex-Senator del Valle may be seen moving about, greeting all with the courtesy for which he is known from one end of the State to the other.

"That many of the delegates still cling to the hope that Judge Jackson Temple will reconsider his refusal to enter the race for Governor, is shown by the eagerness with which they hall any suggestion that he has done so. Judge Temple has advanced, among other reasons for declining, that he is ineligible, under the prohibits a Supreme Justice from becoming a candidate for any office during the term for which he was elected. While Judge Temple resigned from the Supreme bench the term for which he was elected has not yet expired. He regards the legal prohibition as binding.

"The gubernatorial race is prolific in candidates. The boom started Saturday

night for Judge McKinstry for Governor has been nipped in the bud. The friends of Judge McKinstry are out with crowbars, pricking the bubble of his boom. They say that the Judge is not a candidate, and feels much disturbed that his name should have been used in that connection. Strong efforts have been made to induce W. W. Foote to enter the competition for the gubernatorial nomination. He declined to accommodate his friends in this direction, and announces that his am-

office, he will be on hand.

"James H. Budd is confident that his candidacy for the gubernatorial nomination will be a winning one. He claims the support of the entire San Joaquin Valley, and is relying upon many San Francisco voters. I see no other candidate in the field as yet, he said. I do not believe Congressman Maguire wants the nominations. I believe he will be better satisfied with a renomination for Congress. There would be a certainty about his nomination and election to that office. We all know that the fight for the State ticket will be one attended with many uncertain-results. If we win, it will be a tight squeeze. Mr. Pond has been mentioned, but he is not an avowed candidate. As for Judge Jackson Temple, he can have the nomination if he wants it, and I will be the first to second his nomination has yet, however, I see no indication that he will accept. I would very much like to see him nominated. He is the strongest man we could put up. Should he agree to become a candidate, I would withdraw from the fight and give him my hearty support. But I see no hope for his accepting the nomination, and I am, consequently, a candidate for the nomination." The outlook is that Budd is far in the

quently, a candidate for the nomination."

"The outlook is that Budd is far in the
lead. The other candidates thus far mentioned do not appear to be in the fight.
The veteran politicians are talking of
a dark horse at the last moment."

"The contest for the chairmanship of
the convention narrowed down early yesterday to between Thomas J. Clunie and
ex-Sanator Del Valle. The ex-Congressman made his first appearance in the
lobby of the hotel early in the attenuon,
but his epiritis did not appear to be keyed
up to the usual pitch and word was passed
around that he was bosing ground in his
fight. Churie's supporters said that his
political friends were also the political
friends of Del Valle, and it was merely a
question of which should agree to give
way. Del Valle's constituency, however,
kept on tricreasing and his friends did not
appear to coincide with the Chunie view
of the situation. They said that the Southern oandidate did not consider Clunie the
proper man for chairman. He was a selfconfessed Buckley and railroad benchman
and they proposed to oppose him to the
bitter end. In short, they were out for
blood.
"Last night Gould was declared out of

"Last night Gould was declared out of the contest in favor of Del Valle. Clay Webster Taylor is expected to follow the same course. A canvass of the delegates last night showed that Del Valle will probably be given the nomination by acclamation.

on.

"A. F. Jones of Butte announces himself

ably be given the momenation by acclamation.

"A. F. Jones of Butte amnounces himself a candidate for Lieutenant-Governor. Jones says he has no delegation pledged to bim, but expects the support of nearly all Northern counties.

"There is quite a scramble for the office of Secretary of State. The candidates seem to think that the man who received the Democratic nomination will be greatly aided because of the announcement that Secretary Waite will run as an independent. Collectur of Port Wiss wristres a complimentary voie for Governor.

LATER.—The city tonight is swarming with politicism here to attend the Democratic State Convention, which convens in the Baldwin Theater at noon tomorrow. It is generally predicted that the convention will be sensational. The politicians are all at sea, and not even the knowing ones are predicting results with any degree of certainty.

Barney Murphy of San Jose is being industriously boomed for the gubernatorial nomination. Jackson Temple, ex-Justice of the State Supreme Court, has also been urged and could undoubtedly have the nomination, but today he publicly announced that he was not a candidate and would not accept the nomination under any circumstances. It is probable, too, that Congressman Maguire might have the nomination if he desired it, but tenight it seems to be agreed that he will be renominated for Congress.

The "railroad fight" is already on and threatens to seriously disturb the convention. This fight is sure to be precipitated at the opening of the convention. Two contesting delegations have appeared from Sacramento. One of these delegations is admitted to be friendly to the Southern Pacific's interests, while the others, who are known as reorganisers, are openly hostile to the "railroad" influence. The question of refunding the Pacific railroads indebtedness is also a vital issue in California, and is certain to disturb the convention.

An anti-railroad platform is to be presented to the convention and has already

crats who have seen the proposed plank pronounce it a "scorcher," and some of the more politic delegates, who plead for harmony, are importuning Delmas to cut down and prune his production of some of its incendiary features.

ANOTHER -ACCOUNT. SAN FRANCISCO, Aug. 20.—Four-fifths of the delegates to the State Democratic Convention are already here and have been packed in the hotel dobbies all day, en-

of the delegates to the State Democratic Convention are already here and have been packed in the hotel obbies all day, endeavoring to straighten out come semblance of a ticket. At midnight the delegates were obliged to confess that they are all at sea, for none of the more important places can be predicted with any reasonable amount of certainty. There is no slate and no recognized "boss." A number of self-appointed dictators desire to manage the convention, but, they are not in harmony with each other and none have a decisive following. Considerable complaint is heard regarding Federal interference, several officeholders being conspicuous in the various headquarbers. Supervictendent of the Mint Daggett, Collector of Internal Revenue Welborn, and Surveyor of the Port English are doing politics and pulling in different directions.

A series of surprises was sprung during the evening in the form of new candidates, many being boomed, not only without their consent, but against their will. The candidacy of Congressman J. G. Maguire for Governor was formally announced for the first time tonight by his friends who displayed a telegram from Warfaington announcing that Maguire is in the fight. James H. Budd of Stockton combinues to be bromed by delegates from the San Joaquin Vultry and by some of the Federal brigade. It was eaid by friends of Barney Murphy of San Jose that Murphy desired to withdraw from the fight, but that he is being boomed by the supporters of W. W. Foote, who wish the latter to have a clear field for Senatorial endorsement. Under these circumstances Murphy has not yet developed much of a following.

Foote was himself strongly unged to be a candidate. He demurred on the ground that as his utilizate ambition is the United States Senate, and to be defeated for Governor would kill his chances for Senator. In soite of his statement, he has been industriculty boomed for Governor. Delegates from that excellent factors in the South, delegates from that section stating that they will at least see that Templ

Wallace positively refuses to be a candidate, advancing as a reason the recent death of his favorite daughter, adding that he is permanently out of politics. The Northern men say they have really only one man for office, Judge James E. Murphy of Del Norte, whose nomination to the Supreme banch is generally conceded. He has been Superior Judge in his county continuously since the adoption of the new constitution. Another strong candidate for the bench is Judge J. K. Law of Merced, who has been County and Superior Judge continuously for twenty-one years. Walter Cope of Santa Baroara is another candidate. Byron Waters of San Bernardino stetes that he is not a candidate for Supreme Justice, Governor nor any other office.

Eight Southern counties caucused this evening and unanimously agreed to support R. F. del Valle of Los Angeles for chairman of the convention. He will have the support of many city delegates and his friends claim his election is assured. Late in the evening R. M. Fitzgerald of Oakland was launched in the fight for Chairman, his sponsor being Superintendent of the Mint Daggett. Clay Weus-ter Taylor, who has also been talked of in the same connection, has been handicapped by his illness.

About midnight a sensation was caused by the booming of D. M. Delmas for chairman of the convention. This was a surprise, as Delmas had been generally assigned to the chairmanship of the Committee on Platform. Two new Congressional candidates were announced tonight, H. M. Gesford of Napa, a hold-over State Senator, and W. H. Dwyer from the Fifth District. Friends of Maguire propose to postpone a nomination is made.

New candidates for the Supreme bench are Superior Judge Bridgeford of Colusa and Victor Montgomery of Santa Ana. Henry P. Wilson of Los Angeles is a new candidate for Secretary of State. The convention will be called to order at noon tomorrow in the Baldwin Theater by Max Popper, chairman of the State Jentral Committee.

BARNEY MURPHY.

SAN FRANCISCO, Aug. 20.—W. W.
Foote registered at the Baldwin lest night from Highland Springs. He was escorted to his room by William D. English and A. B. Butler of Freemo. About 7 o'clock the Democrats in the looby of the Baldwin learned that Foote was upstairs and began to travel to his room. By 8 o'clock Foote was a candidate for Governor. Budd of Stockton heard of this and made a pfigrimage to Fronte's headquarters. There was a long talk. Foote said he would not be a candidate for Governor against Budd or any other good Democrat. Budd said he did not our for the nomination.

And they all agree that ff Berney Murphy of San Jose would accept the nomination there would be no opposition. So at midnight there was but one candidate for Govering Burney Murphy of San Jose.

THE FALL CAMPAIGN. Preparation of the Congressional

esociated Press Ledaed-wire Service.
WASHINGTON, Aug. 20.—With close of Congress the managers of the Congressional National Campaign Commit-tees are preparing for the fall campaign with much energy. Mr. Faulkner, at the head of the Democratic committee, is di-recting his efforts toward holding a Dem-cratic materix in the House of Repreocratic majority in the House of Representatives. Extensive headquarters are in operation, with the executive work in charge of Secretary Lawrence Gardner. The work thus far has been in preparing full statistics of districts, writing the campaign-book, and in circulating documents. The campaign-book is about half completed. It will be a volume of about three hundred pages, showing the work of Congress and the reforms claimed to have been made in the departmental service. It will be furnished to speakers as a text for their work on the stump. The statistics gathered are the most elaborate ever undertaken by the committee. They show not only the votes by counties for the last four Congressional elections, but cratic majority in the House of Repre vote, a system of percentages has been adopted, by which the percentage of again necessary to success or loss threatening defeat can be exactly determined. Another plan of ready reference is by shaded maps of the various districts in the various colors, to show the strength of the Republicans. Democrats, Prohibition-

go out until Congress has adjourned, and all uncertainty on the question has been removed.

The Republican Congressional campaign in the absence of Secretary Olds, is in charge of Assistant Secretary Thomas H. McKee. By a decision of the Republican National Committee, the Congressional campaign is left entirely in the hands of the Congressional Committee, Charman Manly acting in an advisory capacity. The headquartera force is just now engaged in getting together the campaign text-book, which Capt. McKee expects to have issued by Sepetember 1. The committee has had its headquarters open continuously from November 1 last, and since that time has circulated 3,000,000 pieces of campaign literature. This work will be pushed with even greater diligency from this time forward. The committee furnishes matter for a page each week to special plate-printing and press associations, which is said to be in demand by all newspapers throughout he country.

A complete canvas has been made of every Congressional district in the country, and the work to be done. It states where a campaign is on, the work will be left in the hands of the State Committee entirely. Where there is no State campaign, the Congress district organization will be co-operated with directly. There will be no speakers, because Congressmen and candidates are found to prefer arranging for themselves. Every assistance possible in securing speakers will however, be tendered where it is asked for. it is asked for.

"I found," he said, " that men were
working for the Pullman Company at
wages upon which they could not live. I
found salanies had been cut time and

each of which had grievances of its own."

"Would the ratiroad strikes have occurred if, there had been no Pullman

"That beat us. About this time Gen. Miles came to Chicago, called on the General Managers' Association, and next day was quoted in an interview us saying he had broken the backbone of the strike. Now I consider that call of Gen. Miles as vulgarily out of place. He had no more right to consult the General Managers' Association than he had to consult with our unions. I might say, too, that it seems strange that all our letters and telegrams were held as public property, while not a pin of the railroads' convespondence was published. If it had been, I think we could prove that the General Managers' at a secret meeting, declared they would stamp the A.R.U. out of existence."

In reply to a question Debs said that the union had taken every possible means to prevent riot, and disorder. "We delected to the presence of Federal troops and not State troops and police. If I remember rightly, no senious outbreak occurred until the Federal troops arrived, as their presence inflamed the men."

"I believe striking is justifiable no matter what the result, when it resists ensiving and degrading."

"Do you believe in government ownership of railways?" asked Keernan.

"Yes, sir, I believe that government ownership is decidedly better than railroad ownership of the government."

Debs was followed by P. P. Morrissey, first grand master of the Brotherhood of Railway Trainmen. The brotherhood, he said, did not believe in aympathetic strikes, but in individual strikes. The witness believed in government ownership of railroads.

AID FOR THE PULLMAN FAMISHED. CHICAGO, Aug. 20.—Aid from the city, State and county will probably be solicited for the Pullman strikers. About 2000 men are out of employment at the town, and little hope of work for them remains. The Relief Committee has held several meetings, the object of which is believed to be the appointment of a committee to procure aid in the quarters named. Three representative men will compose the committee, and Chairman Hathoote will be its head. To it will be delegated the task of applying to Gov. Aitgeld and the State and county authorities for relief.

The position taken will be that there are 2000 people at Pullman, and aid will be asked for them without designating the needy as the strikers, nor involving in the appeal the questions recently at issue. Whether the appeal will take the force of a petition or personal visit will be left to the committee.

Vice-President Wickes of the Pullman Company called on Gov. Altgeld and offered to accompany him to Pullman. "I AID FOR THE PULLMAN FAMISHED

prefer to go alone," said the Governor.
"I think I can find my way about town."
ALTGELD AT PULLMAN.

CHICAGO, Aug. 20.-Gov. Altgeld

CHICAGO, Aug. 20.—Gov. Altgeld went to Pullman today to investigate the condition of the strikers. His visit was the result of a communication stating that 1800 families are near starvation.

The Governor made a personal unvestigation of several cases of destitution and found the story of practical starvation had not been greatly overdnawn. After the investigation the Governor asked Manager Middleton of the Pullman Company of he could suggest any solution of the condition of the destitution and starvation.

"The only thing we can do," was the answer, "is to put the old men back as quickly as vacancies occur in the shops," "But this is slow and uncertain," repited Gov. Altgeld, "and the question is one of immediate starvation. Can't you put on a few hundred old men and let them abstrasts until this condition is reviewed?"

company could change its present plans. The Governor will receive the Relief Committee of the Pullman strikers tomorrow and means for relieving the starving people will then be devised.

THE WOODLAND CASES

WOODLAND, Aug. 20 .- The trial of the WOODLAND, Aug. 20.—The trial of the alleged train-wreckers will be resumed tomorrow. Attorney Gaddis of the defense says that the prisoners will not put any witnesses on the stand, but will renew the motion to dismiss the case, Gaddis says that, as far as the Mediation Committee is concerned, the defense made its case on the cross-examination before Judge Fisher, and that they relied upon the jury discharging them on the evidence brought out during the preliminary examination.

ANOTHER SUSPECT.

"SACRAMENTO, Aug. 20.—Tom Killen, one of the men who, it is claimed, accompanied Worden, Hatch and Appleman, alias "Texas," to the scene of the railroad wreck on July 11, shortly before the train was ditched, was today arrested at Wheatland and brought to this city. He will be taken to Woodland tomorrow to undergo examination with "Texas" for train-wrecking and murder.

The men who selzed the train at Dunsmulr to bring armed strikers here had their cases dismissed in the Police Court today, on motion of the District Attorney, and they were fined \$5 each on another complaint for evading the payment of railroad fares. As they were leaving the building, however, they were arrested by a deputy United States marshal on a charge of interfering with the United States mails and interstate commerce. They all managed to give ball in the sum of \$500 each.

THE MILLMEN'S STRIKE.

NEW BEDFORD (Mass.,) Aug. 20. reat textile strike, which bids fair great textile strike, which bids fair to prove the greatest of its kind in the history of New England, is on. Every mill in the city is silent, and the streets are filled with idle operators. It is estimated that over 11,000 persons stopped work. The mill officials and Secretary Ross, of the Spinners' Union, will hold a conference, and it is hoped an understanding will be reached. Secretary Ross says the members of the Union expect the strike to be of six months' duration. At the north end of the city considerable excitement was caused when it was discovered that a dozen operators had gone to work in the Bristol mill. A thousand people attacked the operators as they came out. One boy was badly cut about the face.

people attacked the operators as they came out. One boy was badly cut about the face.

LATER.—Late this afternoon a big change came over the situation. It was generally believed, in view of the procedure of Howland, Roth and the New Bedford manufacturing companies that the strike would soon be settled. It now transpires every manufacturer in the city outside of those representing the above mills, has decided to shut down for an indefinite period. Treasurer Pierce of the Warnsutta Mills has issued the manufacturer in the face with the manufacturer are not keeping that high the manufacturers are not keeping that with thom, although no definite agreement was made. Tonight they understood that no change was to be made in their wages until the outcome of the spinners' strike in New Bedford was made known. A strong sentiment was shown in favor of the strike.

The labor troubles involve thirteen of the largest cotton establishments, with an investment of \$11,400,000. There are 1,304,000 spindles and 15,250 looms involved. Six factories are cloth mills and seven are yarn mills.

CONGRESSMEN INTERESTED.

WASHINGTON, Aug. 20.—Members of the House Committee on Commerce have not abandoned the project of holding an investigation of the recent railroad strikes for which a resolution is before the committee. The appointment of a commission by President Cleveland to conduct a similar investigation was thought to have forestalled action by the committee, and for a time the idea of a Congressional investigation was dropped.

It is thought that the inquiry by the commission now in progress is intended principally to secure information upon the questions of capital and labor involved and their solution. Supporters of the resolution before the committee desire a report regarding the effect of the railroad strike upon commerce. Two or three members favor laws which will control employees so that general strikes paralyzing commerce could not be inaugurated without due notice. They regard the railroads in a measure, as public highways, which should be under public control.

An effort will be made to have a committee meeting this week to report to the House a resolution for an investigation during the recess.

WINDOW-GLASS WORKERS.

PITTSBURGH, Aug. 20.—The window-glass workers have made a proposition to the manufacturers who make allowance for the reduction in the tariff and will prevent many disputes in the factories. Instead of being paid different prices for every varity in size or quality, prices are made the same for any size within certain limits, while the matter of quality will not be afactor. The manufacturers look kindly upon the proposition.

GRASS VALLEY, Aug. 20.—The men employed at the North Star and Empire mines were notified this afternoon that the wages would be cut. Men receiving \$3 are cut to \$2.50; the \$2.50 men are cut to \$2.25, and the \$2.25 men to \$2. Groups of miners are discussing the situation on the streets tonight and it is thought trouble will ensue if the reduced schedule is carried out.

THEIR TAX BURDENS

County Officials Before the Equalizers.

Butte, Glenn, Colusa and Tehams Dissatisfied—Some of Their Reasons.

ath of a Modern Cleopatra— Hitch in the Extradition of Ezeta—Starvation on the Yukon River.

Associated Press Leased-wire Service.

SACRAMENTO, Aug. 20.—The Board of Equalization met today to listen to reasons why several of the county assessments should not be raised. The Butte county officials stated that mortgages had been given on land to the amount of the assessment, but that it would in many cases bring the amount of the mortgage. Some of the land has fallen off 50 per cent. since the boom of a few years ago. A year ago San Francisco agents were up in Butte begging the people-to accept loans on their property, even urging them to transfer loans from local banks. The farmers are getting no such offers now. Assessor Smith showed that the shrinkage of \$100,000 on wheat in the county from last year's assessments was caused by the farmers moving it out of the county and selling or atoring it elsewhere.

Land that would sell for \$100 an acre in 1890 will not sell for \$50 now. A place assessed for \$25 per acre was recently seld and the court confirmed the sale at \$15 per acre.

Mr. Morehouse said that the duty of the

site and the court constrained the sale at \$15 per acre.

Mr. Morehouse said that the duty of the board was to make the burden of taxation as nearly equal on the counties as possible, and asked if the showing made from Butte would apply to Tehama and other adjacent counties. Supervisor Reynolds said it applied to all in the Sacramento Valley. The delegation from Colusa county all said the hard times and low prices of products had depreciated all kinds of property. The Glenn county people not only wished to protest against a raise, but to ask for a reduction. When Glenn county was formed the new assessor put things up too high, and Glean is assessed higher than Colusa and Butte are.

J. L. Barham, Assessor of Tehama county, said that the low-grade lands had lowered had much depreciated in value. The high-grade lands have not suffered so much, and he had not lowered anything that was assessed \$20 or upward. As he wished to see if he could not find owners for the odd sections granted to the railroad company, but not patented, he last year assessed many of them. The experiment was a failure, as no owners came forward and the taxes were not paid. This year he dropped them, which causes a decrease in this year's roll.

He cited cases where property was for spile for the face of the assessment, and some for considerably less. Much land is mortgaged, and the banks do not wish to renew. The owners are steadily running behind. He believed a picket fence, built by himself, was the only improvement made in the county during the past year, and he did not supose he would have been able to build it if he had not been under salary. Fruit trees and vines he had not seen under salary. Fruit trees and vines he had not seen under salary. Fruit trees and vines he had not seen under salary. reduced. The solvent credits are reduced this year by fallures of man who were considered good.

The deficit in personal property he explained by saying that brandy had been shipped away to the extent of \$29,000. The vitue of horses had decressed \$16,000, and the number one-fifth. They can be bought at the buyer's own price. He saw a team that he had assessed at \$50 sold for \$15. Farming utensils have depreciated in value, and merchants have reduced their stocks. Wheat has also decreased in quantity, as has barley. The prices realized did not equal appraisement or assessment in some cases. The reduction in the roll was only fair and just, and the county should not be raised. The Gallatin ranch is assessed at \$10 per acre, and Gallatin took it back after selling it at \$6 per acre. Supervisor C. S. Jobe cited a place of 200 acres, assessed at \$4 per acre, which a \$500 mortgage will take; also one of 240 acres, assessed at \$3 and \$4 per acre, which a \$400 mortgage will absorb. He mentioned several such cases. As to wheatraising, Tehama is at. a disadvantage compared with other counties on account of the distance to tide-water.

Assessor McRay of Sutter county said his reasons for the decrease tallted closely with those of the representatives of the other counties. The decrease fell mainly upon the land around the buttes, and in the leating the land adobe lands adjoining them. The water in the tules destroys the crops. The Buttes itself has as the lowest assessment \$4 per acre and is not tillable. From that it runs up to \$35. Sheep have declined in numbers, but lost in value, many having been bought and sold for \$1 as against \$2.50 and \$3 last year.

CHLOE BRADWAY.

Death of the Fresno Girl Whos Forte Was Elopements.

Associated Press Legaet-wire Service.

SAN FRANCISCO, Aug. 20.—Chloe Bradway, whose mania for elopements caused her to gain much notoriety a few years ago, is dead. She was only 17, but her reckless mode of life brought her to an early grave. She passed away at the City and County Hospital in this city. Her once symmetrical form found its last resting-place in the city cemetery. The grave is marked by a plain wooden headboard, upon which her name and age have been lettered.

marked by a plain wooden headboard, upon which her name and age have been lettered.

For more than two years Chloe Bradway's escapades were prominent in dispatches sent from Freeno, which was near the place of her birth. She became imbued with a desire to emulate the triumphs of Cleopatra in her conquests among men. Chloe commenced at the early age of 13 and continued for three years a course of fickle attachments until she was accredited with nine clopements and one marriage, though positive information is to be had only as to seven clopements.

She disappeared from public view a year ago last February, when she cloped with Ephraim Young, a resident of the vicinity of Centerville, where Chloe lived. As in other escapades of like nature, she remained but a short time with Young Later she was married, but, in keeping with her funband only six weeks and left him to fice with a new admirer. Her parents had both died quring this time and her living relatives had abandoned all hope of rescuing her from the path she had chosen to follow.

After drifting away from her husband Chloe floated about until she was well over the line. Her last illness began at a lodging-house on Market street, where she had been taken by a young man with whom she had been living. From day to day she grew worse and worse. A doctor called, but could relieve her only temporarily. She and her companion were both about penniless, and the last recourse was the city's hospital. She was taken there in a dying coadition, and in two days life had fied. Pneumonia did the deadly work. Such was the sad end of a girl of a wild and wayward nature. She was born seventeen years ago in the foothills, twenty-nive miles east of Fresno. Her parents owned a small ranch. Chloe attended school and one day fell upon a dife of Cleopatra. She eagerly read it and then dealared she would surpass the great Egyptian Queen. She was tall with a well-rounded form, handsome features and

flashing black eyes. Her charms won her many victims. She was 13 years old when she started on her career of adventure. The first to fall in the net was a schoolmate, a lad four years her junior. The pair electrified the little town by running away and marrying by contract.

The four years between this episode and her death were marked by a series of elopements, accompanied by adventures thrilling enough for the heroine of a border novel.

EZETA'S WAIT.

It is Further Increased by Nonarrival of Warrants.

Associated Press Lensed-wire Service.

SAN FRANCISCO. Aug. 20.—The Bennington is till outside the three-mile limit. The mysterious extradition warrants are still in transit and no one will fix a day for their arrival. The assurance is given that when they do arrive there will be no delay in serving them.

"The statement has been made that these warrants have been in the city for

that when they do arrive there will be no delay in serving them.

"The statement has been made that these warrants have been in the city for several days, and that we have abstained from executing them," said one of the attorneys for the Salvadoran government. "Now, it should be palpable to any man of common sense that if that were the case we would have no reason to put the administration to the expense of keeping the Bennington outside the jurnsilction of the courts. It should also be palpable that the government would not metkly endure such treatment. The statement is therefore absurd. When the varrants come they will be served, and that is the end of it."

There is every indication that the Bennington is to be kept at sea indefinitely. This morning Lieut. Stoney came over from Mare Island, chartered the tugboat Sea King and went to sea again with another big supply of fruit, vegetables, fish and fresh meats for the Bennington, indicating that it is the government's intention to keep the refugees outside the three-mile limit and beyond the reach of habeas corpus for ai least a day or two. This strange delay is a puzzle to the local Federal authorities, who are all but certain that the necessary documents in the case have arrived from Washington and are now in the hands of the San Salvador, some of whom are known to be friendly to the Ezetas, are still fighting among themselves. The President of San Salvador, some of whom are known to be friendly to the Ezetas, and it is considered probable that the deposed Consul, Virigoyen, who is a close friend of the Ezetas, and who hurried off to New York recently to confer with Carlos Ezeta, the deposed President, has refused to deliver the documents to his successor.

LATER.—The warrants for the arrest of Ezeta have arrived, and were taken over to Consul Calderon. He refused to say what action he would take in rerving the warrants.

MINNEAPOLIS. Aug. 20.—A Minneapolis boy, who is—a member of the crew of the Bennington, on August 15, wrote his parents in this tity a letter which they received today. He refers to the important prisoners they had on board. He writes that when they left San Francisco and had gone beyond the three-mile limit the Sea King brought the commander sealed instructions which were not to be opened until after a certain time. When thirty miles beyond the three-mile limit the sealed orders were opened and it was found the commander had been ordered to Ensenada, Mexico, where he was to land the refugees, but before proceeding to that place the ship has been undergoing repairs, which explained why it has remained at anchor.

A letter received here from one of the Bering Sea fleets states that the recent visit to the seal islands by one of the officers of the fleet disclesed the fact that while there is a considerable number of buil and bachelor seals on the islands, there are not as many cows as last year, and it was ascertained that the seals are rapidly diminishing year by year.

So certain are the authorities on this point that they will kill off a larger number of buil and bachelor seals this year than last, and it is thought that the sealers will kill so many after August that there will be but few left to kill next year. It is expected that the sealers will kill off a large number of females, leaving many pups to starve. The situation is regarded as alarming from the standpoint of the prescryation of the seals. In fact, there is such a decrease in the number of seals that some of the rookeries are no longer occupied, and they are being renamed by the authorities.

For San Francisco, 5i deg.; Eureka, 56; Red Bluff, 80; Sacramento, 72; Fresno, 80; Los Angeles, 68, and San Diego, 64. As compared with the normal temperatures, a heat deficiency—is shown at all places save Eureka, at which point normal conditions prevail. The deficiency at San Francisco amounts to 6 deg.; Red Bluff and Fresno, 1 deg.; Sacramento, 2 deg.; Los Angeles, 5 deg., and San Diego, 6 deg.

"In reference to crop conditions there is little to be said over what was noted last week, excepting in another week grape and hop-picking will be pretty well advanced, but will not reach its maximum point for a couple of weeks or more. Fruit is being dried as fast as possible, although it is somewhat delayed in the coast districts on account of forgy mornings.

"To show the peculiarities of our climate, it is noted at San Leandro, Alameda county, that the first ripe tomators this season were picked this week, while in the interiog valleys further pemoved from the coast tomatoes have been in market for weeks. The same can be said of grain, for in the far northern counties of Modec and Siskiyou, harvesting is still being carried on, all of which shows the wonderful and varied climatic conditions of this

State, which peculiar conditions give us the great variety of productions that are to be noted in all the branches of our agricultural industries.

"The crop of white and pink beans of Santa Barbara county is the lightest crop in years: The highest and lowest temperatures were 110 deg. at Huron, Freeno county, and 45 deg. at Santa Clara, Santa Clara county.

SEATTLE (Wash..) Aug. 20.—A freight train on the Seattle, Lake Shore and Eastern Railroad, consisting of ten cars loaded with coal, logs and shingles, was wrecked near Latona about 5 o'clock this afternoon by striking a cow, and two of the crew were killed and terribly mutilated. The train was coming toward the city at a good speed when it struck the cow, and the engine was thrown in the ditch. The tender ran against it, and smashed one-half of the cab, crushing in one side of Fireman Thomas J. Black's head, breaking one of his legs and mutilating his body, death being instantaneous. Brakeman Frank Parrott, who was also in the cab, had his head cut clean off as with a guillotine, the back of it crushed and the head thrown several feet from the body. Both men's bodies were also badly scalded. Engineer Raiph Osborne and a coal heaver, name unknown, were in the other side of the cab and ercaped unhurt, but the coal heaver has not since been seen, The tender, after smashing the cab, ran some distance to one side, its trucks landing in one place and the body in another, and the cars were all plied up promiscuously in the ditch and badly damaged. The loss will be from \$1500 to \$3000.

CAPTURED A PRINCE. Some Curious Facts About the Inns Pullman's Daughter is Engaged to

and Hotels of Scotland. Associated Press Lensed-wire Service.

LONDON, Aug. 20.—The engagement is announced of Miss Florence Pullman, to the Prince of George M. Pullman, to the Prince of Isenberg-Birstein, the eldest son of Prince Charles of Isenberg-Birstein and the Archaluke Maria Louise.

Some Curious Facts About the Inns and Hotels of Scotland.

(The Caterer:) Robert Kempt has gathered together many interesting historical items and quaint anecdotes about the inns and hotels of Scotland. It must be confessed the historical side begins very late, for in olden days inns were practically unknown over the border, travelers being received in private houses as guests. Consequently, there is no record of such ancient hostelries as the Tabard, in Southwark: the Mermaid, in Bread street, or the Blue Bodfd, in Eastcheap.

When Defoe went to Scotland he had difficulty in finding an inn at Aberdeen, and this, in spite of a royal edict, issued by James I in 1424, to the effect that in all borough towns where there was considerable traffic, hosteiries should be established, but these institutions did not flourish till very much later. Mr. Kempt gives some amusing difformation as to the pains and penalties enacted in the fifteenth and seventeenth centuries regarding the hours of closing, drunkenness, etc. The inns of Aberdeen are accorded a whole chapter, for there is much to say about those of the last century. They practically formed open clubs for the wits and learned men of the hospitable city. Over very modest repasts and potations, grand symposis were held; the philosophers lived low, but thought and spoke high.

Dr. Johnson seems to have appreciated the Aberdeen inns; he found them almost as congenial as his haunts in Fleet stjeet, and certainly far better than the Scottish houses of entertainment. Among other interesting items of information Mr. Kempt points out that whisky is a comparatively modern beverage, and that in olden days claret was almost as much drank as ale. The Regent Albany is supposed to have made claret popular. In 1480 red Gascony wine sold in Aberdeen at sixpence a pint, and later on claret and port wine could be had at eighteen pence a bottle. Indeed, claret and port in those early days could be procured cheaper in Scotland than in most parts of England.

In the citles and country s Austria.

Miss Pullman's father only consented to his daughter's engagement to the Prince on the condition that the children shall possess full rights of succession to the title, dignities and hereditary privileges of the house of Isenberg-Birstein, according to the Austrian law, and the magnates of the house of Isenberg-Birstein must by formal document recognize the equality of Pullman's grandchildren with their own descendants. If Miss Pullman could obtain the title of Brincess from some foreign court, this difficulty would be overcome. Importance of the Evicted Tenants

Thomas Sexton, the anti-Parnellite, asked if, in view of the veto of the Evicted Tenants Bill and the Home-rule Bill by the Lords, the government would define its policy in the next Queen's speech. Sir William denied that the veto of this measure constituted the gravity speech. Sir William denied that the veto of this measure constituted the gravity of the situation. The government was

as to this once fashionable form of indulgence.

During the eighteenth century it seems that the best society in the Scottish capital, ladies and gentlemen, used to make parties at one of the taverns in Auld Reckle, there to partake of oysters and porter, ending up with brandy and rum punch, with songs and dancing. Some of these old Aberdeniar and Edinburgh inns were the ancient houses of noble families, great rambling buildings, with many rooms, some of remarkable fine proportions. Even a few of the country inns were former mansions of the lairds of the soil.

BANKERS' VIEWS.

DAVENPORT (Iowa,) Aug. 20. — The thirteenth annual encampment of the Sons New York Financiers on the Tariff

Banker Cannon, president of the Chase National Bank says:

Show the order to be in good condition.

Other reports show betterment of the financial condition of the order, but less Banker Cannon, president of the Chase National Bank, says:

"It is difficult to foresee what effect the bill will have on the business interests of the country. Manufacturers and merchants will undoubtedly undertake to do business under the new act, and trade should improve somewhat, although many of the manufacturers and merchants are decidedly opposed to the bill. The income-tax feature is looked upon by many of our best business men as a tax on ondeavor, and undoubtedly it will have a tendency to keep investors from putting EBENSBURG (Pa.,) Aug. 20.—Judge Barker today handed down a decision in the suit of W. If the country is not prosperous, the new tariff bill will be the scapegoat, and business troubles will be charged to it, whether or not such charges are deserved." ST. LOUIS, Aug. 20.—About midnight a freight train on the Wabash road struck a horse, two miles west of Jonesburg,

Banker Clews says:

"Thanks to the dominant party at Washington for having finally released their hold upon the throat of all briess interests of this country. The action of the Democratic caucus today puts the tariff muddle in a postilion to be settled, in which event it wrenches from the legislators at Washington the weapon, which they have held over everybody and everything for a long time. The best part of it it, it is like cutting off. a dog's stall, it cannot be done over again. The agitation on the tariff has inflicted serious consequences upon all mercantile interests; and the disaster in that direction has in turn unsettled labor, resulting in the disgraceful Debs strike. The way should now be clear for a new departure upon a rock foundation, a condition which could only have been accomplished by rigid economy and thorough liquidation. The attitude for everybody to take now is on the building up side, which carries with it cheerfulness, hopefulness and profit to all whe will put their shoulder to the wheel and take hold with a vim. His satanic majesty has reigned supreme for a long time in this country, but has now been fairly routed. It should, therefore, be no longer held on earth, but the reverse, and a change so much the better as to make life worth the living."

Banker Tappan, president of the Gallatin National Bank, says: which resulted in the ditching of the locomotive and nineteen cars and the killing of Engineer C. He must have left it in the Pullman car.

"Which train?" "Which train?"
"The one which arrived at 9:15."
"Have you your Pullman check?"
Fortunately, he had, and this enabled
the superintendent to send for the conductor.

He soon arrived, for he had not yet finished the report of his trip, and was still in the building.

"Conductor," said the superintendent, "did you see anything of a package left in your car?"

"No, sir."
"Porter didn't turn anything over to

A BIG FRUIT CROP.

The deciduous fruit crop of California this year promises to be by far the largest that has ever been harvested in the State. Some months ago an official of the Southern Pacific Company estimated that they would be handling in the State during the year no less than twenty sand carloads of fruit altogether that is, including citrus and deciduous fruit, also canned and dried fruit. It looks as if this estimate would prove

to be rather under than over the mark. Another feature of the California fruit industry, this year is the fact that the market for our fruit is being extended rapidly. In previous years comparatively little California fruit has gone as far as the Atlantic coast. There is quite a change this year During one week of this month no less than two hundred cars of fresh fruit were received in New York. But this is not all. On the 4th of this nth a train of eleven cars of fresh fruit left Sacramento consigned to London, and was forwarded to New York on the steamship Paris. It is intended to follow this shipment reglarly with other ones, and it is hoped that a good market for our fruits may be opened up in Great Britain. The freight from Sacramento to London has been reduced to \$700 per carload, which is less than it used to cost from has also been brought down to about the time that was formerly required for the shipment from Sacramento to

New York. Sacramento is now sending East about one hundred carloads of fresh fruit every week. The San Jose district is contributing about thirty-five carloads more and other fruit-growing sections of the State, including Southern California, are doing their This is only a good begin-When it is remembered that it is only a few years since California began to ship fruit by the trainload, and when it is remembered further that the largest planting of orchards has been since such large shipments ommenced, which orchards have not yet come into bearing, then one may get some faint idea of the importance which the fruit-growing industry of California will attain by the end of the present decade. With the growth of the industry it becomes more and more important that new and profitable markets for the fruit should be opened up, for it is of little use to raise large crops of fine luscious fruit unless the growers can make a fair profit out of it. This year the growers re likely to do very well, owing to the general failure of the fruit crop throughout the East. As the fruit industry grows in im-

portance from year to year the out-look for the growers becomes a ques-tion of increasing interest, not only to horticulturists, but to merchants ult of that crop depends at extent the abundance or e of money in California. The crop has become to California a crop to Kansas and the

At a meeting of the Knights of Labor in Philadelphia on Sunday, "Gen," Sovereign was so hard pressed by those present that he called a policeman to clear the hall. So it seems that, while it is very wrong for the people of the country to call upon the Federal authorities when they are threat-ened by law-breakers, it is all right for a demagogue to call upon the municipal au-thorities when his followers begin to get tired of being bossed around by him.

It is announced that in their State con vention the Democrats will ignore national issues as much as possible. This is cer-tainly a wire resolution. The condition of affairs which has been brought about in the country by Democratic rule is not one to which the party can very well "point with pride." It is rather a matter to "view with alarm." This is a case where

Coxey and Browne, we are informed, are going to start up their circus again in December, when Congress reassembles. A prison-stripe uniform has been adopted, which Browne now wears. The fact that mercantile human nature is very much the same all over the world is shown by the report from Japan that native bankers are locking up their money, in the hope of making large profits later on. The mass of the people, however, appear to be inspired with much patriotism. Similar traits have been no ticed in other countries.

LETTERS TO THE TIMES.

Milk. LOS ANGELES, Aug. 20, 1894.—To the Editor of The Times:) The new ordinance, as proposed by the Board of Health, in regard to milk inspection, is timely and proper, and should promptly meet with the approval of the City Council. In a community of this size a proper supply of pure and unadulterated milk is a matter of first importance to the health of the consumers, more particularly the infant class, who, in many cases, depend exclusively upon custom milk as furnished from sively upon custom milk as furnished from large dairies as an article of food. It is well known in other cities where a rigid system of milk inspection is carried on, the extent to which skimming, watering, and other more harmful modes of adulteration is practiced. The temptation to a dishonest dealer is great, and if the art is skillfully managed the casual consumer would not be likely to detect the fraud. To an adult, perhaps, no great harm would ensue, but to the infant who subsists wholly upon and requires a pure milk supply, the danger of using sophisticated would not be likely to detect the fraud. To an adult, perhaps, no great harm would ensue, but to the infant who subsists wholly upon and requires a pure milk supply, the danger of using sophisticated milk might be great and perhaps fatal. The most common methods in use among corrupt dealers in milk are skimming, watering, the addition of certain preservatives to prevent the milk from turning sour, and occasionally the addition of substances to thicken and color the skimmed and diluted milk. Some of the preservatives used would be seedingly harmful if taken daily even in small quantities. In cities of less size and far less importance than Los Angeles, milk inspection is carefully conducted under the direction of the rights and privileges. Which naturally belong to a reasoning and intelligent man who has attained his maturity, and to place him in leading strings under the direction of a dictator or a board of dictators, dividing up the proceeds of his labor among the community, without regard to what each member may have earned. This is the wrong way. The other way is to allow perfect freedom to each individual member in the ownership and profits of way. The other way is to allow perfect freedom to each individual memfect freedom to each individual member in the ownership and profits of his property, to permit him to act as freely in all matters of general interest as if he did not belong to any colony, and to confine the co-oping the profits of the feet of t

ing the period of infection.

This matter, of course, would properly come under the direction of the Health Officer, and the city could at small expense fit up a sufficient laboratory for the prosecution of this important work. Samples of the milk should be frequently or daily taken from the dealers by the duly-authorized official, and carefully analyzed and examined. Then a severe penalty should await the one found guilty of offering for sale an adulterated article.

A Vigorous Protest.

A Vigorous Protest.

LOS ANGELES, Aug. 20.—To the Editor of The Times:) On behalf of the residents of our city living in the neighborhood of the Jefferson-street Gardens, I wish to voice a protest. Last night—Sunday—the people living between the gardens and the terminus of the Grandavenue line were treated to outbreaks of profanity and obscenity from the half-drunken persons who frequent that place, shouted at the tops of their voices. This occurring between 11 and 12 o'clock on Sunday night was not a very fit ending to a Los Angeles Sunday.

A drunken crowd of both sexes took possession of a dummy on the Grandavenue line, and kept up their disturbance all through the city.

I am told that this is the regular thing on Sunday nights.

It would be a good thing for the city if these gardens were closed for good. If that cannot be done, a police officer should patrol Main, Jefferson and Thirty-first street on Sunday nights and make these revelers keep quiet.

As a believer in law and order, I hope that something can be done to suppress these disturbances.

Allow me, also, to congratulate The Times on its course during the late strike. It seemed to be one of the very few papers on this Coast to uphold law and order.

Candidates Repudiate the Lindley "Influence."

Mr. Molyneaux Goes Squarely Record Against Boss Rule.

Enthusiastic Meeting of the Second Ward Republicans - Organiza-tion of the Sixth Ward Club-Single Taxers.

The feeling against the Lindley-Webber combine is growing every day, and there is an increasing sentiment that any candidate tainted with Lindleyism in the slightest degree should be nominated to stay at home. Candidates for office, after canvassing the county and ascertaining the true feeling of the people, realize this fact, and, in consequence there is a general desire to get beyond the baleful influence. The latest candidate to declare himself is F. A. Molyneaux, who repudiates Boss Lindley, Boss Webber and all other bosses, and declares further:

"I have never asked any person or cellection of persons to place me on any slate or programme, neither have I promised to deliver any delegate or delegates to such a combine.

Day presiding, and R. A. Marshall officiating as secretary.

The matter of the selection of delegates to represent the ward at the county convention, which had been made a special order at the last meeting of the club, was the first thing taken up, and, after a brief discussion, it was resolved, upon motion of M. A. Gould, that it be the sense of the club that the caucus be held as before, each precinct choosing its own delegates and prescriting their names for indorsement to the meeting.

The invitation of the Committee on Arrangements of the Los Angeles Republican Club to the members of the club and their wives and relatives, to the mass-meeting to be held at Hasard's Pavilion on Saturday evening next, was accepted, and it was resolved to meet in the Jones Elock at 7:30 o'clock on that evening, so that the members of the club should attend in a body, with their ladies, who were invited to march with them to the pavilion. The Third Ward Club resolution with reference to the recent action of the Republican Executive Committee were then offered by Mr. Schramm, but immediately after they find been read Dr. Wernigk moved to lay them on the table. M. A. Gould thereupon arose to address the meeting, but was interrupted by Mr. Schramm, but immediately after they find been read Dr. Wernigk moved to lay them on the table. M. A. Gould thereupon arose to address the meeting, but was interrupted by Mr. Shults, who raised the point of order that the motion was not debatable? Before the chair could put the question, however, Dr. Wernigk withdraw his motion, and M. A. Gould, merely for the purpose of bringing the matter before the house, moved the adoption of the resolution.

George Gephard said that it seemed to him that, as the dates had second to stand. The only question involved was one of time, and this was certainly not important enough to cause a division of the purpy.

Mr. Schultz was of the opinion that the time had passed when such an objection as that set forth in the resolutions could be raised, and he therefore

Several people have come forward offering desirable lots for building purposes at reduced prices, and, if enough labor is contributed, the success of the project will be assured.

MIDNIGHT FIGHT.

A Little Man Wins Against Heavy

A Little Man Wins Against Heavy Odds.

An impromptu prize-fight took place at the corner of Third and Los Angeles streets, about 12 o'clock Sunday night, in which a big ruffian was soundly thrashed and two others escaped only by taking to their heels, the man who did the smashing being smaller than any one of the three. At the hour named a young fellow, with a girl on his arm, was walking along the sidewalk, when three men approached, and one of them applied an insulting remark to the girl. Her escort did not waste any time, but, pealing off his coat and handing it over to the girl, remarked that he would just about clean out the whole gang, taking them one at a time, and commencing with the biggest one. The men started off, but the little fellow was too quick for them, and, striking, out with his right, landed on the big fellow's jaw, knocking him down, and falling on-him. The big fellow began to beg for mercy, and his two pals started to his assistance, when the little fellow yellod to them to keep off, as he would attend to them in a few minutes. They, however, advanced, and tried to separate the struggling men, when the girl stuck her hand between them, when she got her finger badly nipped.

By this time the big fellow was trying evidently to bite the big man's face, and the girl stuck her hand between them, when she got her finger badly nipped. By this time the big fellow was thoroughly whippied, and the little man who won coolly put of his coat and resumed his attention to the others, when the whole party made off, while the man who won coolly put of his coat and resumed his walk, nursing the girl's wounded finger.

It is thought that the man is insane, as he says that some one is constantly threatening his life. About \$200 in gold, a bank book on a San Fráncisco bank, and other valuable papers, were found upon his person. Police Surgeon Bryant is watching the case, and the man will not be taken before the lunacy commission at present.

WOMEN ROUNDING.

(From Our Regular New York Fashion Corre Scarlet waistcoats have been a common adjunct of the more costly tailor rigs o

the summer, but the real reason for their popularity is not that women think them good form, but that, as a rule, 'he scarlet waistcoat is an imported garment and is cut on really good lines. It is a deplora-ble fact that the ready-made American affair is flat-chested, big-belted and bulgy below the waist. By the way, that is what is the matter with ready-made Amer-

ago a young lady was lying half awake in a bed in a house on State street. Suddenly she became wholly awake with the consciousness that a mouse was running over her bosom. She had presence of mind not to move, reasoning that the mouse would presently run away without harming her. But instead, the little creature creet onto her neck and there nestled comfortably down, his back curied against he lower part of her cheek, which isy on the pillow. The lady's blood was simply frozen with horror, but she did not dare move, fearing that the mouse would bite her if she did.

Collecting her wits, she resolved that she would, by a sudden and mighty effort, jump atdewise in the bed, away from the mouse, leaving him high and dry on the pillow, and then get quickly up and out of the bed on the other side. She would count three and jump. She wounted one, two, three—and then she did not jump. The mouse nextled comfortably claser to her neck. It was now or never. She began again and counted one, 'to, three! This time she jumped sidewise, downward, upward and everywhere and screamed became of the mouse could not be learned, for when all the family came, with lamps and pokers and various other weapons to her aid, no trace of the poor little creature could be found.

CHARTS OF COASTS.

Our War Vessels Each Carries 3000 of Them.

The Delicate Process by Which They are Engraved—Constant Cor-rections Needed.

A Diplomat Who Was Surprised The Merchant Marine Service is Supplied With Charts by he Navy Department.

WASHINGTON, July 30.—(Special Correspondence.) The accident which occurred to the cruiser Columbia in the the precariousness of havigating hug-ships of war near the coast. This acci ships of war near the coast. This accident occurred while an experienced pilot was guiding the vessel. She was then on her trial trip. If she had been in service, and entirely under the control of the Navy. Department there would have been no pilot aboard. The officers of the navy are gequired to depend on the charts which their vessels carry for navigation, not only along the coast of the United States, but in all foreign waters.

Our ships of war carry about 2000 coast

Our ships of war carry about 3000 coast charts apiece. With the aid of these they are

able to enter any known harbor, or skirt any coast without the aid of a local pilot. Sometimes a miscalculation brings them to grief, as in the case of the unfortunate Kearsarge. But these accidents are exceptional, and are to be charged to mistakes in recknoning.

Lieut. Richardson Clover, now in London, but for a long time in charge of the hydrographic office here, tells of an experience when he was navigator of the Myoming. Mr. Maynard, who had been a member of the House for many years, was Minister to Turkey. He was very anxious to visit the ports of the Black Sea in a man-of-war. This privilege had been denied to all nations since the Crimean war, but the Grand Vizier of the Sultan, who was very friendly to the United States, consented to issue a permit to the Wyoming, subject to withdrawal if any of the representatives of lege had been denied to all nations since the Crimean war, but the Grand Vizier of the Sultan, who was very friendly to the United States, consented to issue a permit to the Wyoming, subject to withdrawal, if any of the representatives of the treaty powers objected. Mr. Maynard was very anxious that the vessel should sail at daybreak, but when he learned that no pilot was to be taken aboard he became very much exercised. Lieut. Clover took him to the chartroom and showed him that for every little port on the shores of the Black Sea, the Wyoming had a chart. There were forty-seven of them in all. Mr. Maynard was quite sure that these charts must have been put on board especially for this excursion. But when he found that every war vessel for the United States was equally well prepared to cruise in the Black Sea, he said that he had had an object lesson in the value of the chart system, which had taught him much. During his service in Congress he had always opposed appropriations for the chart department of the hydrographic office. He admitted his error when he saw how valuable the charts were. Mr. Clover told him that the Wyoming was quite as well prepared to cruise in any waters, as in the waters of the Black Sea.

The carrying of so many charts, desemblad because no one can know on what the Wyoming was quite as well prepared to cruise in any waters, as in the waters of the Black Sea.

The carrying of so many charts, desemblad because no one can know on what the Wyoming was quite as well prepared to cruise in any waters, as in the waters of the Black Sea.

The carrying of so many charts, desemblad because no one can know on what chort notice we may want to mass all our war vessels in one port—possibly on the Asiatic, perhaps on the European, station. It would not be practiceable for all of these vessels or for many of them, in fact, to stop at some port of the United States en route for the purpose of getting the appropriate charts. And it would not be ease to trust to the tender meroles of a docal pilot, espec

be supplied. This department then telegraphed to the disputch agent in London to purchase copies of the charts shere.

If the coast survey charts shad been energraved on copper, there would have been no difficulty in obtaining prints on short motice. The British admiralty puts every chart received on copper and the number of them owned by the British government must be something enormous. Of course a new chart is not made every time a change is discovered at the formation of a cossit sine or a harbor. Changes are made very easily in the copper plates so that with a comparatively small expenditure they can be kept coustantly 'up to date." There are thirteen engravers and three apprentices working in the hydrographic of fice making copper plates of charts. In addition to these engravers, there is a force of draughtsmen and a force of printers. The drawing of a chart is necessarily a matter requiring considerable skill and great situation to mathematical exactness. Each of the charts is drawn complete before it is engraved. Then usually several engravers are put to work on one chart. Bugravers, this and every man, for example, who cares to fill in 10,000 dots with a steel point in the space of a square inch. This work is done under a microscope and one man can hardly do more than a square inch of it in a day.

The transfer of the chart from the original drawing to the copper plate is made in sections. The transfer agent is a sheet of very thin transper at fish give. This sheet is fastened over the drawing. An engaver with a fire-pointed steel tool traces in the fish glue the lines and points of the drawing underneath. The operator cubs graphite into the drawing a tend in place on the amouth copper plate with the traces side down. Of course, the adjustment of each piece of film to exact relations with the adjacent parts of the drawing is a very delicate master. When the film is in place, a biunt instrument is rubbed over the back of it and when the film is removed, a graphite tracing of the cristing the traces side

ieather under a pressure of 250 tons. They come out of this preof peolectly amouth. There are a great many minor changes in coast charts which must be made by hamd. The Coast Survey has one clerk who does mething but put red circulate who does mething but put red circulate thrown out by certain lighthouse. Lighthouse changes are not so frequent as the changes in budys. These the clerks in the hydrographic office are continually rubbing out or filling in to the printed change. Bach chart as it is completed is stimped 'adds to Navigation, corrected to date of information received to July 1'—or whatever the date may be.

Where a permanent change in a chart is necessary, it is made by hammering the surface by thammering the plate and then filling in the blank space with the corrected cograving. This business of cutting away a part of the engraving and raising the surface. By thammering the plate on an anvil and then filling in the blank space with the corrected cograving. This business of cutting away a part of the engraving and raising the surface of the plate is done by the same process that is used by engravers who make changes in the plate from which your visiting cards are printed.

The process of engraving and printing maps is much lets expensive. Map-makers seldom use copper plates. Very often they print their maps on cylinder presses from stereotypes. The engraving for the past fifteen years has been done with the map they are today and the gaseteer which twenty-five years ago cost a small fortune can now be had for a song. Map-making is now done in a room whose temperature is never allowed to fall below 90 deg. This temperature is hard on the engraver, and workers on map engravings do not stick to the business long. The heat of the room where the wax hardens. A coating of black lead is then rubbed over the plate and it is suspended in an electroplating both. The copper in the solution is deposited on the black lead and forms the original. This thin copper in the solution is deposited on the black lead and

The Land Committee presented the fol-lowing report, it being explained that the whole of the report was concurred in only by Councilman Munson, and that Councilman Strohm concurred in only the portion regarding land adjoining Westlake Park: "We recommend that the City Engineer

directed to make the necessary survey and map of the land recently ordered of and map of the land recently ordered con-demned for the extension of West Lake Park, from Seventh street to Ninth street, and for the extension of the East Side Park, by condemning sixty acres of the Dr. Griffin tract, and the land recently or-dered condemned for the extension of the Elysian Park, and furnish the same to the City actorney."

dered condemned for the extension of the Elysian Park, and furnish the same to the City Attorney."

After an unsuccessful attempt had been made to adopt the report, Chairman Munson, of the Land Committee, was granted permission to withdraw. He then moved to to take the matter from the Land Committee. The chair declining to entertain the motion, the committee reported that its members could not agree on the matter be taken before the Council, which was done. Councilman Munson then offered a motion embodying the recommendations made in the report.

A motion to table this motion failed to carry, and Councilman Pessell moved to include in the proceedings that portion of the Briswalter tract lying between Washington and 'Atlams streets, and San Pedro street and Central evenue.

Councilman Strohm moved to further amend by including that portion of the Downey estate bounded by First, Alameda, Jaokson and Vine streets.

Both of these amendments failed to carry, and Councilman Campbell moved to refer the matter to the Park Commission, he taking the position that the Elysian Park proposition is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which has been recommended by the Park Commission, and hence is the only one which h

BUSY BURGLARS.

The Detectives Still Digging Up Evi dence Against Them.

At least one burglary in addition to the two already proven has been laid at the doors of the three men arrested by De-tectives Hawley and Auble on Saturday

surveyor Street's residence on Bellevie avenue near Pearl was burglarized by three men last Saturday afternoon, while the family were all absent. The method of procedure which the three adopted was absolutely startling in its audicity. A neighbor living opposite saw two of the men enter the house while the third remained on the veranda and signalled to his companions with a handkerchief. Their actions were so hold that the neighbor, who was watching them and had not lived long in that vicinity, concluded that they had a right to be about the premises. Apparently the trio found nothing to excite their cupidity for they left the place empty-handed.

The three men who entered Surveyor Street's residence have been positively identified as the three knights of the jimmy now languishing in the City Prison. No complaint has yet been sworn out against them as the officers are not through digging up stolen property and identifying their captives as the men who have been doing most of the burglarizing hereabouts for the past month. evenue near Pearl was burglarized by

WE want every body to know that a boycott has been issued against this house. If they do any trading with us we want them to do it with their eyes wide open. For the past four years we have taken unusual pains to conduct this business so that nothing unfavorable could be said against it. For over two years we have closed every night in the week. We have been giving our employees a weeks vacation and have paid them in advance. Every person that has come and asked for a donation on behalf of the laboring classes have gone away with a liberal donation. So careful have we been that in a number of instances an appeal has not been necessary; the money has been sent them. We knew and felt that a considerable amount of unasiness was abroad among all classes and that by being liberal we would escape unfavorable criticism when a crisis came. The past year has been a hard one on all classes. Early in May our contract expired with The Times and we allowed it to lapse for three months. Before that time there had been boycott circulars issued against us and after we dropped our advertising we watched for the boycotters to throw their trade and influence in our favor. One came in inside of three months and purchased 25c worth of goods and made an effort to say that he was doing some trading in the store. We thanked him for it but declined to enter into any talk with him for fear that he would do as he had done before-ask for five or ten dollars for the benefit of his class, who probably never received a penny of it. Finally to increase our business we selected 20 country papers and The Times to advertise in. We selected the papers from a business basis. We did not consider whether the editor was a good or a bad man. It was simply what class can we reach through each medium. We have made a contract for a year with The Times and we intend to fulfill our contract. When they earn their money they will get it. If any body wants to stay away on account of our advertising they are at liberty to do so. If any man will sign his name to a boycott circular against this house the writer will use every penitentiary. A boycott circular without a name signed to t emanates from a coward. We want the trade of the working man. We do not want the trade of an anarchist. Every respectable journal in this city has thrown this crowd overboard. Over 100 people have visited this house and have bought goods stating they came here on account of the boy-cott since the last boycott circular was issued. To the timid merchants we say from personal knowledge, you lose more than you gain by your timidity.

USED HER RAZOR.

A Negro Woman Carves a Man Who Was Abusing Her.

A negro named Nick Brown was picked up by the patrol wagon on Downey avenue at about 6 o'clock yesterday morning bleed-ing from several cuts about the chest, inflicted by his mistress, whose name is Mol-lie Jackson. He was conveyed to the Receiving Hospital, where his hurts were Receiving Hospital, where his hurts were dressed. The woman came to the police station an hour or so later and admitted having cut Brown, but says that he was abusing her. She was at once looked up in the Clty Jail, but was released shortly afterward, when it became apparent that Brown was not seriously hurt.

The Etiquette of Perfume.

(Boston Journal:) There are dainty ways of making oneself smell sweet. Eau de cologne is the one toilet water that never goes out of style. There are two choice odors—lavender and violet de japonnals. The lavender is used for bed and table linen. Any other use is the blunder of ignorance. This particular cologne is rarely to be had out of the gates of Paris. It retails there at \$5 a pint, but two tablespoonfuls in a tub of water "will smell somebody up all day," as they say in French.

Another source of sensous delight is half a pint of bensoin throuwn into the tub, making a milk bath. This tincture is only 10 cents an ounce, it cleans the skin and tightens it, which makes it popular with flabby old dándles and withered old dames, and it leaves the flesh exhaling the odor of refinement, so to speak. Bath bags are always satisfactory, although very expensive, the suspicion that the maid or somebody used it forcing the exquisite to provide a fresh one every day. Orris or almond meal, with shaved soap and oll of roses or violets, is the usual filling.

Monte Carlo is the place to get essence or orris, and the only place. When a woman is caught in that wicked little pricipality, and feels called to explain, she can always say that she came for a supply of orris-violet, and be believed. The price, like everything else, is as high as the Alps. A four-ounce bottle sells for 75 francs, but one drop on the lace collarette or revers will make the whole dress smell like a violet. The violet of Grasse, which belongs to Nice, is exquisite, and preferred to Monte Carlo by the people who detest the range of the place. The source of the side of the place of the place of the place of the side of the place of the place of the side of the side of the place. The scent, a triple extract, is sold exclusively in a little shop below the sidewalk at \$3 a host the Ajcardi, found in San Remo, which is the Ajcardi, found in San Remo, which is the Ajcardi, f

BY DEVIOUS PATHS. HOW THE NEWS COMES PROM CHINA AND JAPAN.

By a Round-about Way of Twentyfive Thousand Miles from
Hong-Kong to New
York.

A New York letter to the Pittsburgh Dispetch cays:

"News from the seat of war in the Orient, in reaching readers of American newspapers travels fully 25,000 miles. Peling is exactly due east or west of New York; as you choose, being on the same parallel of isstitude and about 20 deg. nearer to the west than to the east, and Hong-Kong is as far south of Pekin as Havaing is from New York. So if there were an air-time telegraph to the Chinese capital the message testing that war at last had been formally declared between the Japa and the Johns would only have to fig. a built matter of something like 2000 miles.

So of commonwers, formary, comes showed and a commonwers of the co and as many a message before the ChinaJapan war is over is likely to take more
than an-hour in sending, it may very well
happen that the front end of the story is
haing frozen into cold type while the rear
end is hissing into the sea at far-away
Hong-Kong, Singapore, Penang, Madiras,
Bombay, Bushire, Teheran, Odessa, London,
Land's End and Coney Island are all ticking away at the same time on the same
message which American newspaper compositors are putiting into type, though it
not infrequently happens that London
works directly with Teheran without sny
break on the European continent.

"The messages from Japan go, as a
rule, under sea, to Vladivostock, whence
by the great northern lines they rush
across Siberia to St. Petersburg and thence
to London by way of Copenhagen. And in
addition to the overland routes there is
an all-water communication by way of
Aden, the Red Sea, the Mediterrancan and
the Bay of Biscay to London. You pay
your money and take your choice, and it
costs about 60 cents a word less by way of
Siberia than by any other route."

Worth Millions.

Worth Millions.

(Exchange:) The recent distinguished forcign visitors to Windsor were greatly struck by the magnificence of the royal plate at the castle. Even the czarowitch, accustomed to the almost barbaric splendor of the court functions in his native land, was fain to admit that for solid worth he had never seen the equal of the English plate.

The royal plate at Windsor is generally reckoned to be worth about \$10,000,000, and it is no unusual thing at a state banquet at the castle to have plate to the value of \$2,500,000 in the room. There are two state dinner services, one of gold and one of silver. The gold service was purchased by George IV, and will dine 120 persons. The plates alone of this service cast over \$30,000, on that occasions there are usually placed on the dining service cast over \$30,000, on that occasions there are usually placed on the dining table some very beautiful gold flagons, captured from the Spanish Armada, which are now at alliver wine cooler, made for George IV, and weighing 7000 ounces, always adorns one corner of the apartment. As sideboard ornaments, there are pretty trifies in the way of a peacock of precious atones, valued at \$150,000, and a tiger's head from India, with a solid ingot of gold for its tongue, and diamond teeth.

This wonderful collection of plate is crown property; which practically means that it belongs to the country, and the Queen has separate collections for use at Balmoral and at Oaborne, which belong to herself.

Repartee Below Stairs.

(Exchange:) It was a sunshiny morning, and all nature was asmile. The birds were singing in the budding trees, and the flowers were filling the air with their fragrance. There was a jcyousness in all the world, and the train; amb'ed up to the it: then deor with a heart full of hope and a stomach full of room for breakfast. He banged away at the upper panel in the door, and the cook main her appearance.

"Well, what do you want?" she inquired, in a tone slightly off the general pitch.
"Quess," he respended, coquettishly. "Quess," he respended, coquettishly. The she was not." she retorted, slamming the shoot in his face, and he want out of there as if he has been hit in the back with a bag of railired splices.

FELL DEAD.

Sudden Death of a Well-known Business Man.

Frank Manton, proprietor of the Manton Plano Rooms, at No. 708 South Broadway, fell dead at 6 o'clock tast evening. The fatality occurred on the sidewalk in front of the Davis Sowing Machine Company's store at No. 128 South Main street. Mr. Manton, order has been walking with Manton, who has been walking with coutches ever since he broke his leg a month ago, was just about to join his wife, who was seated in a buggy, standing by the sidewalk, when he slipped and fell. It is supposed that the shock and the pain to the injured leg caused heart fallure from which death resulted almost immediately. He was carried into Mr. Davis's moned. When the dodtor arrived he pro nounced Mr. Manton to be quite dead. The news was kept from his wife, who was an agonized witness of the sad occur-rence, until the body had been removed to their home at No. 703½ South Broad-

Mr. Manton was about 35 years of age and leaves no family, so far as could be learned, except his wife. The Corener's inquest will be held to-

OPENING OF THE TOURNAMENT

Result of the First Day's Play in the All-comers' Singles — The Programme for Today.

SANTA MONICA, Aug. 20.—(Special Correspondence.) The tenth annual tour-nament of the Southern California Lawn Tennis Association, opened at the Casino courts this morning under the most favorable auspices. There was a fair crowd of spectators and a sufficient number of players entered for the various events to guarantee a good meeting.

The tournament opened with play in the all-comers' singles in which the cast made antagonists of Brown and Warring, made antagonists of Brown and Warring, Gemain and F. Carter, Cosby and Howland, Young and K. Carter, Acker and Lester, Wilson and Bumiller, Barry and W. Corson, Spencer and G. Corson, Freeman and Smith and Osborn and Way.

The day's play gave Warring the series over Brown, by 6-0, 6-2; F. Carter beat Germain 6-2, 6-2; Young beat K. Carter 6-0, 6-3; Lester beat Acker 6-2, 6-4; Bumiller beat Wilson 6-2, 6-2; Barry beat W. Corson 8-6, 7-9, 6-1; Spencer beat G. Corson 6-0, 6-3; Lester beat Young 6-1, 9-11, 6-1; Bumiller beat Barry 6-2, 6-2; F. Carter Bumiller beat Barry 6-2, 6-2; F. Carter

Corson 8-6, 7-9, 6-1; Spencer beat G. Corson 6-0, 6-3; Lester beat Young 6-1, 9-11, 6-1; Bumiller beat Barry 6-2, 6-2; F. Carler beat Warring 6-0, 6-2; Freeman beat Way 6-4, 8-6.

There is every prospect of the meet being a success in every particular. The average of the talent aiready present suffers nothing in comparison with that of other years, and more will be on hand before Tuesday is past.

Among those noted in and around the courts were:

E. J. Graham and wife, F. G. Ryan and wife, Roy Jones and wife, Miss Graham, Robert-Lee Betther, Miss Jones, R. F. Jones and wife, Juan de Bandini, J. R. Moore and wife, J. E. Hoy and wife, Dr. and Mrs. E. C. Folsom, Judge and Miss Van Dyke, G. L. Warring and wife, W. H. Young and wife, Miss Cartex, Capt. and Mrs. Bolton, Mrs. W. T. MILITIA IN CAMP.

The Seventh and Ninth Regiments Comfortably Quartered at the City by the

NATIONAL GUARD AT SANTA

CAMP SANTA MONICA, Aug. 20.—(Special Correspondence.) The militia has taken possession of this city by the sea. The two regiments of the First Brigade are encamped on the plain lying north of town and near the polo grounds. The First Battalion of the Seventh,

commanded by Maj. Starin, and compris-ing Cos. A, C and F of Los Angeles, and G of Anaheim, arrived over the Southern Pacific at 10 a.m., and at once went into camp, guards being posted and the civil-ians being excluded. This last order is only temporary, however, and was in-tended to give the men a chance to get their quarters in good condition before receiving visitors.

The officer of the day today is Capt

Henry Steere of Co. A, Lieuts. Kennedy of Co, C and Collingwood of Co. B being respectively senior and junior officer of the guard.

The Pasadena company did not arrive

The Pasadena company did not arrive until just at noon, coming over the Santa Fe. The Ventura and Santa Paula companies came later still, arriving in time for supper. Of course, much has yet to be done before the camp can be said to be in thorough order, but the result so far is quite satisfactory, and by today everything will be in good shape.

The commissary department naturally interests the men more than any other so far, and all that needs to be said is that the food supplied is both ample in quantity and satisfactory in quality.

Co. C of Los Angeles has the largest attendance in camp, having a total of forty-seven men. Co. G of Anaheim has only twenty-nine men so far, but Capt. A. F. Halpin says he has more coming. The beet season is at its height, and many of his command were obliged to remain at home to attend to the harvesting of their crops.

The Ninth Regiment, commanded by

at home to attend to the harvesting of their crops.

The Ninth Regiment, commanded by Lieut.-Col, Berry in the absence of Col. Spileman, arrived at 4 pm., and has gone into camp just south of the Seventh. The men made a fine appearance as they marched through the streets, headed by their full military band, the pride of San Diego. One company in particular, Co. F, presented a splendid warlike appearance, with knapsacks and canteens slung in the most approved regular-army fashion.

Lieut. G. W. McIver, U.S.A., who is to act as instructor, is already in camp and busy giving advice and instructions to the various officers.

The officers and men are well pleased with the grounds and the location of mess tents. No drills were held today, but dress parade took place at 5:45, as per schedule. The parade ground is in fine condition for military maneuvers, and some fine battalion and regimental drills are expected.

some fine battallon and regimental drills are expected.

Co. F of the Seventh distinguished itself in its old line of furnishing the orderly for the commanding officer, Private Bennett being selected on account of neatness of appearance and military bearing. At Ventura this company got the orderly five days in succession, and is starting in to sustain the old reputation.

Of Lieut. Molver, the inspecting officer the Soldier and Sailor of March says: the Soldier and Sailor of March says:

you are going to get sometime for holding, is a humbug and a fake, says Chief Crowley of the San Francisco police department.

Chief Glass echoes this opinion very emphatically, and says he is getting absolutely tired of listening to the complaints of people who allow themselves to be humbugged and cheated by such gentry, and then come to him asking for a redress of their grievances.

The scheme is an old one, so old that people ought to realize by this time that it is a fraud. But they don't, and the bunco men know this. They like it because it is easily worked. A bogus company with a big name, an enterprising funce man with a big name, an enterprising funce man with a big nerve, and a plausible tongue, comprise all the capital required. be, finds that the man with the large nerve and plausible tongue, representing the company with the big name, has quietly skipped the town.

Chief Glass received a letter from the head of the San Francisco police department yesterday regarding one of these schemes, which was worked extensively in this city last spring. The letter grew out of the complaint made to Chief Glass by a man named Di Giorgis, who was victimized last spring to the tune of \$37 by the Imperial Watch Company of San Francisco, and later applied to the police authorities for assistance in securing his timepiece. Di Giorgis turned over thirty-seven coupons and \$1 to be forwarded to Chief Crowley at San Francisco, through whom the watch was to have been collected from the company.

Here its what Chief Crowley says:

SAN FRANCISCO, Aug. 17, '94.

J. M. Glass, Chief of Police, Los Angeles—Dear Sir: Replying to yours of June 24 and August \$, I have to say that the "Imperial Watch Company" has gone out of existence. It never had any stock, but when a "drawing" was made, sent to an outside dealer and procured a watch for the occasion.

M. J. Morley, the alleged president, was arrested here on July 9 last, on a charge of felony, embezzlement, on complaint of L. Carran, of No. 220 Sutter street, dealer in watches, jawelry, etc. I presume it was patched up, as the charges were dismissed in Department One, Police Court, July 19, 1894.

I cannot learn where Morley now is. I received a letter from his wife, dated at Grand Rapids, Mich., Aug. 10, asking for information of him, saying that he had sent her East some time ago on a visit to friends, and she had not heard from him since, and her former servant girl had written her that he was living with another woman, and that he had been arrested, etc.

A report of City Clerk Dyer, showing the number of ballots issued, used in and returned after the election of last Saturday was received and placed on file. The votes for the board of freeholders were canvassed, and it was formally shown that all the regular nominess were elected.

A resolution fixing the tax levy for all municipal purposes for the present fiscal year was introduced and passed. It provides for the same rate as last year, 100 cents on each \$100; sewer fund, 15 cents; fire and sinking fund, 24 cents; library sinking fund, 14 cents; library sinking fund, 17 cents; library sinking fund, 18 cents; library sinking fund, 19 cents.

The new pavement on North Fair Oaks avenue, between Colorado and Union streets, was formally accepted.

A request from the Pasadena Land and Water Company for permission to tear up a small section of pavement at the northwest corner of Colorado street and Fair Oaks avenue, for the purpose of replacing a woeden pipe with an iron one, was denied.

City Clerk Dyer submitted to the Board of Trustees his report showing the running expenses of the municipal government for the fiscal year of 1893-94, as shown by the register of warrants, together with his estimate of the amounts required for by the several departments for the present year of 1894-95. SANTA MONICA, Aug. 20.—(Special Correspondence.) The property-owners on the South Side met for the purpose of forming an association at the Arcadia Hotel Saturday evening. An executive committee was appointed to take charge of the affairs, and to see to the much-needed public improvements. Streets will be graded, watered and lighted, police protection provided for and general improvements made on all lines.

Among the Santa Rosa's passengers this morning came Richard Smith and daughter from Ohio, old friends and neighbors of Nathan Bundy and wife, whose guests they are at their Fifth-sirect residence. The visitors contamplate a year of Southern California climate by way of experiment.

Mai. Senstor Jones gave a dinner Saturday and Miramar in honor of her guest, and the same in the contamplate of the same contamplate and the same in the following ladies: were present: Mmes. Deborah Henshaw, Irvine, O. W. Childs, Sartori, S. P. Hunt, J. Cook, Plater, H. M. Gorton, R. P. Jones, G. B. Lester, C. Morgan, D. J. Kheally, Roy Jones and E. J. Gorham.

The Santa Rosa this (Monday) morning left: 180 tons of freight and forty passengers at this point, clearing for San Diego.

Co. A of the Seventh Regiment, N.G.C., will on Thursday evening of this week give a musical entertainment at the North Beach bath-house, in which mandolins, guitars and donios will play a conspicuous part. The programm will be replete with good things, for the furnishing of which on similar occasions the company has won deserved popularity.

Co. F's knapsacks and canteens came this morning just before the company left for camp at Santa Monica, and were hastily given out to the members. At the depot the company joined in with Cos. A and B of San Diego, and as the train rolled out it very much resembled a full-grown argenal.

The remaining members of Co. F who are to go down to Santa Monica the next few days should wear their uniforms when applying to the local railroad agent for transportation. It is in uniform the agent cannot issue him a ticket as per agreement for transportation.

ONTARIO. ONTARIO.

ONTARIO. Aug. 20. — (Special Correspondence.) The present dry season is not without one mitigating result. It is stimulating investigation of new sources of water supply, and is likely to lead to many important and permanent developments along that line. In Ontario five new water prospects are being developed. Frankish & Stamm are working on a prospect shaft near the mouth of Cucamonga Canyon. This is down nearly 250 feet, and a good deal of water is coming in. On Sixteenth street they have one well in which the water already stands at fifty feet, and another is being sunk near that with good prospects. Both of these will be put down deeper as soon as pumping machinery can be put in postion. A little east of this point. another is being sunk near that with good prospects. Both of these will be put down deeper as soon as pumping machinery can be but in position. A little east of this point, just on the edge of Cucamonga. Oakiey & Hakell are developing an eld well. They are oumping out about thirty inches of water as a continuous flow, and che supply increases as they go down. They intend to run side drifts along the water-bearing stratum, and expect to increase the flow to fifty inches within a short ime. On Twenty-first street W. J. Bodenhawer has struck water in a well 110 feet deep. The prospect seems good for ouite a supply, and he hopes to interest capital in the development and push the work. Last, but not least, is the Hanson project of ariesian wells in the southeast corner of Ontario, near the Southern Pacificaraliroad. Hanson & Co. feel very confident of striking-a good ertesian flow, and are preparing to risk quite a sum of money on the expectment.

It is, of ccurse, too late in the season to expect much benefit this year from these various new developments, but it seems probable that by next summer from some or all of them quite a large increase in our water supply will be secured. And in general, these developments are at points where in years past here has been little thought even of the possibility of striking water.

SHORT JACKETS-LONG BOOTS.

(From Our Regular, New York Fashion Correspondent.)
Jacket shapes have shown much variety recently and the longer ones have had decided preference, almost to the exclusion of the bolero and short eton. The early fall styles will be much the same, but an occasional bolero is seen and the newest ones are very short. The one sketched herewith is in black and white plaid, fastening double-breasted with four large steel buttons. It has large revers of white

san bows directly at the back. They are especially pretty with crisp wash gowns of cambric.

Patent leather shoes are considered more correct just now than russets by swell folk, but the russet is more comfortable, just the same. To wear an evening white shoe with a street or outdoor rig argues good intention, but total lack of information as to good form. The correct shoe for wear with a white duck, serge corduroy, sacking or cambric brown, is of white duck, with square toe, a square low heel of brown wood, with brown trimmings and brown silk strings. If all-white effect is wanted, the heel is covered with duck, the trimmings are white leather, and the strings white linen. An undressed kid low shoe, with a high heel and white satin or ribbon strings, is all wrong, except for a garden evening dress. The bootmaker now displays shoes that come above the knee. The upperpart is really a legging of jersey-woven black, buttons to the knee, is loose there and straps above. The lower part is a shoe like any other, fitting trimly at the ankle, and with a sole that is not too thick. This affair reduces the nuisance of the legging considerably. The makers maintain that the leg-shoe may be worn with any garment, and that with an outing gown it is just the thing.

(Kate Field's Washington:) A young woman once went to the studio of the artist, Mr. Healy, with her face as covered with paint and powder that every characteristic line was obliterated. He was, of course, in a dilemma. He could not order the girl to go and wash her face; he would lose his commission, and he was too polite a gan'leman. He could not lay the same paint on canvas that there was on her face; it would not be satisfactory to her family. When the sketch was lined in he rose from his seat, est down beaide his subject and kindly asked her if she was feeling as well as usual. Surprised, of course, she replied that she was. "But, Miss Jones, you walked from the hotel, did you not?" "Yes." "Ahd you came upstairs hurriedly without stopping to rest?" "Why, yes, of course."
